

Bar/Bat Mitzvah Packages

Whether it's just the party you want captured on video or the entire day, we want to partner with you to create lasting memories of this special simcha. We've outlined a few basic packages below to give you a sense of what we can capture for the weekend. This is by no means set in stone as we will be happy to create a fully customized package that meets your needs.

Party Coverage 7pm-11pm Includes 7-8 minute recap video USB drive with video recap	\$1,100
Party Coverage and Morning Service <i>(if allowed)</i> Includes 10 minute recap video Mingling and "congratulations" after the service Small snippets of the service with audio USB drive with video recap	\$1,300
Party Coverage, Morning Service and Post Service luncheon Includes 10-15 minute recap video Mingling and "congratulations" after the service Small snippets of the service with audio luncheon footage USB drive with video recap	\$1,600

The style of editing we use is to ensure the recap video has a cinematic feel to it by using only the best shots we capture. We like to think of it like a movie with a story; a beginning, middle and end. All packages include one edit after review- Example: changing music, taking out certain shots etc.

Your video will be delivered via a Dropbox link where you can download and view. And a USB drive. The video can also be uploaded to a private YouTube link to be viewed only by the recipient of the video.
